Favorite Campus Memories
I have great memories of my student years at Washington University. The campus environment itself encourages academic excellence. The technical and laboratory courses as well as the humanities courses leading up to the Bachelor of Science Degree in Electrical Engineering were challenging and motivating. I am grateful to the professors, including Dr. Lloyd Brown, and instructors for their dedication, knowledge, and experience. I also have great memories of playing intramural tennis as a member of the Theta Xi Fraternity, Iota Chapter, participating in the Thurtene Carnivals, as well as rooting for the Battling Bears football and basketball teams. The academic preparation, as well as interaction with fellow students, was of great benefit to me in my career.

All the activities I was involved in including: Theta Xi-scholarship; Chairman 1964; IM Tennis ‘62-’64; I.E.E.E: I.F.C. Sing; Thurtene Carnival; IM softball; Engineer’s Day.

Life Since Graduation
Since graduation, I have worked for Wagner Electric Corporation, Union Electric Company, and Ameren Corporation. I retired in 2011. As you can now see in the recent photo, I still enjoy my hobby of electric trains which are assembled and run during the holidays for family and friends. With my wife, XXX, we have four children and nine grandchildren. I wish all the 50th Reunion Alumni the best.
ELEANOR “ELLIE” GREEN

Although I started out at Washington & Lee University, I partied myself back to St. Louis where after a semester in University College (better known as the night school), I went on to receive my Bachelor of Science degree in Business Administration from Washington University. In 1965, I married XXX from St. Louis and we have two children and two grandchildren.

After graduating, I joined the St. Louis office of Arthur Andersen where I spent the following 33 years. I was admitted to the partnership in 1977, headed up the worldwide coal mining industry from 1980 to my retirement in 1998, and served as managing partner of Financial and Economic Consulting of the St. Louis office from 1988-1998.

Over my career, I served on college, charitable and non-profit boards. I am past president of the Washington University School of Business Executive Committee and past president of the Washington University Alumni Association, as well as past president of the Coro Foundation, and past treasurer of Focus St. Louis and the Edgewood Children’s Center. In 2000 and 2001, I was president of Bellerive Country Club in St. Louis where we were hosting the 2001 American Express World Golf Championship when the tragic happenings on September 11 rightfully brought an abrupt end to this event as well as numerous others around the country.

Since retiring from Arthur Andersen in 1998, I have been fortunate to a very exciting second part time career serving on several public company boards – Peabody Energy Company (BTU-NYSE), Natural Resource Partners (NRP-NYSE), and about 85 closed end, open end and exchange traded mutual funds under the Guggenheim Financial family of funds. I also serve on the board of Kennedy Capital Management, Inc., a privately held investment advisor in St. Louis.

We split our time between St. Louis and Bonita Springs, Florida where golf is a must for both venues.

1300 Will Graduate Today

Chancellor’s Message

As an impromptu mind is to a sculptor’s eye, the changes of the day and age are often amusing, requiring those who observe them to be quick on their feet. It is my hope that you will enjoy this particular day and that you will be conversant in all its events and situations. In short, College should provide you with an opportunity to sharpen your powers of observation, to improve your debating abilities, and to show your true colors.

This is particularly important now. The desire to pull your own weight is the most important aspect of knowledge, and I have noticed how this is being lost in the current generation. You cannot and will not know the value of knowledge if you do not understand it. You cannot and will not understand it if you do not study it. This is true of all knowledge, but it is especially true of the knowledge that is being lost in the current generation.

Business School Honors Students

Senior Honorary Selectees

Twelve students and eight faculty members were recently selected for membership in Omicron Delta Kappa, national honorary service leadership honorary. Membership is based on scholarship and leadership ability with emphasis being placed on the top 5% of the class.

Nursery School To Give Program

Chancellor Eliot

Sister Francesca Barbarisi

Will Deliver Main Address

6300 students will receive degrees today at MSU’s commencement exercises. The ceilings, which will begin at 3:00 P.M., will be addressed by Sister Francesca Barbarisi, niece of Pope Pius XI and president of the Institute of Catholic Culture. She has also received the award of Doctor of Laws from the National University of Notre Dame, the “Gide-Montefiore” award of the University of Paris, and the “Gide-Montefiore” award of the University of Rome. She will also be the recipient of the “Gide-Montefiore” award of the University of Rome in May, 1965.

57 Honored At Dinner

For Financial Support

Three hundred individuals and organizations were honored at a dinner recently for their financial support of the Student Life Fund. The dinner was held at the St. Joseph’s Hotel.

3 Law Students Will Work In

Rights Projects

One law student and three faculty members were recently selected for membership in Omicron Delta Kappa, national honorary service leadership honorary. Membership is based on scholarship and leadership ability with emphasis being placed on the top 5% of the class.
